

## Wednesday 27th August 2003

9:00	LT3: Conference opening and Welcome
9:15	LT3: Plenary session - Keynote: Ted Nelson <i>Structure, Tradition and Possibility</i> Chair: Les Carr, University of Southampton, joint Programme Chair of ACM Hypertext 2003

10:25 Coffee in the Computer Science Atrium

10:45	LT3: Mixed Reality Hypermedia Chair: Tom Rodden, University of Nottingham Hyperreal: A Hypermedia Model for Mixed Reality Physical hypermedia: Organising collections of mixed physical and digital material The Ambient Wood Journals - Replaying the experience	LT1: Emergent Web Patterns Chair: Simon Buckingham-Shum, Open University, U.K. Extracting evolution of Web communities from a series of Web Archives Do adaptation rules improve Web cost estimation? Automatically sharing Web experiences through a hyperdocument recommender
-------	---	---

12:15 Lunch in the Catering Atrium

13:00	Computer Science Atrium: Plenary session - Posters and Demonstrations	
14:00	LT3: Plenary session - Hypertext readings Chair: Donna Leishmann, Glasgow School of Art, 6amhoover.com John Cayley <i>riverIsland</i> Noah Wardrip-Fruin <i>Talking Cure</i> Simon Biggs (tba) Talan Memmot <i>Art History 101</i>	

15:30 Coffee in the Computer Science Atrium

15:45	LT3: Hypermedia Semantics Chair: Carole Goble, Manchester University Which Semantic Web? Finding the Story - Broader applicability of semantics and discourse for hypermedia g	LT1: Adaptive Hypermedia (i) Chair: m.c. schraefel, University of Southampton Integrating User Operations in multichannel hypermedia (short) Pocket news: contents adaptation for mobile users (short) AHA! The Adaptive Hypermedia Architecture (technical briefing)
-------	---	---

16:45 Buses depart Jubilee Campus for Sheriff's reception (see separate evening schedule)

## Thursday 28th August 2003

- 9:00 LT3: Plenary session - Panel  
*The Next Big Thing Inc.*  
Chair: Wendy Hall, University of Southampton  
Panelists: Paul de Bra, Peter Murray-Rust, Ted Nelson, Peter Nuernberg, Cathy Marshall
- 10:15 Coffee in the Computer Science Atrium
- 10:45
- |   |   |
|---|---|
| LT3: Link Aggregation<br>Chair: Kaj Gronbaek, University of Aarhus<br>Untangling compound documents on the Web<br>Providing support for browsing intricately connected paths<br>Publishing evolving metadocuments on the Web (short)<br>Multi-layered cross-media linking | LT1: Hypermedia Creation<br>Chair: Mark Treglown, University of Nottingham<br>Decentering the Dancing Text: from dance intertext to hypertext<br>Simplifying annotation support for real-world settings - a comparative study of active reading (short)<br>Collage, composites, construction (short)<br>Combining spatial and navigational structure in the Hyper-Hitchcock Hypervideo editor (short)<br>Paper chase revisited - a real world game meets hypermedia (short) |
|---|---|
- 12:15 Lunch in the Catering Atrium
- 13:00 LT3: Plenary session - ACM SIGWEB meeting (open to all)
- 13:45 Buses depart from Jubilee Campus to Main Campus for hypertext films session
- 14:15
- 14:30 A48 (Econ & Geog) Plenary session - Hypertext Film *Sliding Doors*
- 16:15 Coffee outside film venue A48 (Econ & Geog)
- 16:30 A48 (Econ & Geog) Plenary session - Hypertext Film *Minority Report*
- 18:00 Staff club bar open
- 19:00 Conference dinner with plenty of free wine and music by Moose Malloy!
- 23:00 Buses returning to Jubilee Campus
- 23:30

## Friday 29th August 2003

9:00	<p>LT3: Plenary session - Panel <i>Writing Accessible Hypertext/media</i></p> <p>Chair: Helen Whitehead, Nottingham Trent University, and trAce Panelists: David Kolb, Jim Rosenberg, Gavin Stewart, Mark Bernstein</p>
------	---

10:15 Coffee in the Computer Science Atrium

10:45	<p style="text-align: center;"><b>LT3: Hypermedia Systems</b> Chair: Dave Brailsford, University of Nottingham</p> <p>IUHM, a hypermedia-based model for integrating open services, data and metadata Structure and behaviour awareness in Themis Increasing the usage of open hypermedia systems: a developer-side approach (short) Storm: using P2P to make the desktop part of the Web (short)</p>	<p style="text-align: center;"><b>LT1: Adaptive Hypermedia (ii)</b> Chair: Franca Garzotto, Politecnico di Milano</p> <p>User-controlled link adaptation AHA! Meets Auld Linky: Integrating Designed and Free-form hypertext systems "Pluggable" user models for adaptive hypermedia in education (short) Is simple sequencing simple adaptive hypermedia? (short)</p>
-------	---	--

12:15 Lunch in the Catering Atrium

13:00	<p style="text-align: center;"><b>LT3: Web Engineering</b> Chair: Michael Bieber, NJIT</p> <p>The Connectivity Sonar: Detecting site functionality by structural patterns A visual environment for dynamic Web application composition Configuration management in a hypermedia-based software development environment A cooperative hypermedia solution to work management in real-time enterprises (short)</p>	<p style="text-align: center;"><b>LT1: Links for a better Web</b> Chair: Jamie Blustein, Dalhousie University</p> <p>Refinement of TF-IDF schemes for Web pages using their hyperlinked neighbouring pages Enhanced Web document summarisation using hyperlinks Link Analysis for collaborative knowledge building (short) "Common" Web paths in a group adaptive system (short)</p>
-------	--	--

14:30 Coffee in the Computer Science Atrium

15:00	<p>LT3: Plenary session - Keynote: Peter Nuernberg <i>What is Hypertext?</i></p> <p>Chair: Lynda Hardman, CWI, joint Programme Chair of ACM Hypertext 2003</p>
16:00	<p>LT3: Closing session - thankyou and handover to Hypertext '04!</p>
16:15	<p>Goodbye and see you next year!</p>
